Cellu-Mask™

Adhesive Foam Film Laminate

Convenient Polyethylene Foam Surface Protection That Clings To Your Product For Fast, Easy, Tape-Free Application and Removal.

Cellu-Mask™ Adhesive Foam Laminate

Value-Added, Protective, Durable Foam Laminate

Used as an interleave between large or heavy objects, narrow strips at critical weight-bearing points provide the required protection.

Can be used for in-plant handling protection during manufacturing in addition to shipping applications.

Availability

Cellu-Mask™ – Polyethylene foam with adhesive film laminate. Available in 48" x 600 ft. rolls.

Easy, Tape-Free Application

Easy-to-handle material saves labor, increases productivity and reduces costs. Affixes readily to a wide range of highly-polished or painted metal surfaces or smooth plastic substrates. Adhesive holds protection securely in place over time.

Superior Surface Protection and Lightweight Cushioning

1/16" thick Cell-Aire® polyethylene foam prevents scratching and abrasion while resisting moisture, tears and punctures. Reduces damage and improves customer satisfaction.

Outstanding Pliability

Conforms easily to compound or unusual shapes and protects even hard to reach places.

Withstands Weight

Crush-resistant foam provides durable interleaving for heavier products.

Convenient "Spot" Protection

Can be easily trimmed, or precisely die cut to fit selective areas. No tape necessary and no need to wrap or cover the entire item.

No Adhesive Residue

Can be quickly and cleanly removed. Leaves no residue or adhesive "patterning".

Reusable

Cellu-Mask™ Foam can be re-applied multiple times, thus reducing solid waste and material cost.

CFC and HCFC-Free

Important Note: With all adhesive-coated products, certain precautions must be observed. Products should be stored in a cool, dry area. Sealed Air recommends that you test this product under your particular environmental and shipping conditions. Ultraviolet resistance checks will take at least 30 days. Sealed Air assumes no liability, except for replacement of Cellu-Mask™ products, should it prove defective.
