- ★ Complete PLC machine control with Touch screen operator interface
- ★ Semi-automatic and fully automatic models available
- ★ Stainless steel wipe down construction
- ★ Casters with locking wheels standard
- ★ Heavy-duty industrial design floor model machine

Description

Starview's RBF Series rotary type heat sealers are designed for medium to higher volume production requirements. These machines are designed for producing all board heat sealable food containers. **Starview's RBFA Series** fully automated rotary type heat sealers are designed for high volume production requirements and include standard one sealing station, three operator loading stations for trays, one lid feeder and a finished package unloading system. RBF Series machines may also be used for conventional carded blisters, full face blisters and half-clamshell styles as well as applications using Tyvek, foils and other heat sealable lidstock.

Starview's RBF Series rotary heat sealers are designed to include an optional automatic package discharge system. This option is permanently attached to the machine and must be ordered with the new machine.
