

# Package Design & Development Centers

Capabilities

## Providing the Most Comprehensive Global Network of Packaging Services for Over 35 Years

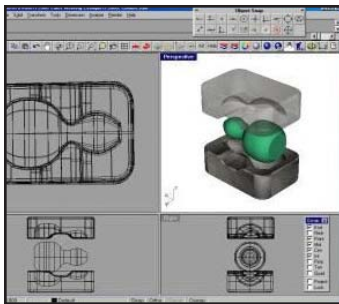

# Comprehensive Offerings in Packaging Design, Testing, Prototyping and Tooling

## The Sealed Air Network of Centers

Our certified packaging professionals collaborate with your packaging and shipping personnel to create innovative solutions that endure the rigors of the shipping cycle and ensure that products arrive safely. A majority of our solutions also significantly decrease the volume of material used – our ongoing commitment to source reduction.

## Design Services

As the recognized leader and innovator in protective packaging design, Sealed Air's extensive global network features:

- 35 global locations, 24 of which are ISTA certified
- Over 10,000 designs completed each year
- 77 full-time packaging design professionals globally

## Verification and Validation Testing

Sealed Air package testing centers are equipped to perform a wide range of standard package tests, using simulated and actual conditions. Verification and validation testing we provide includes:

- ISTA, ASTM, ISO and NMFC testing
- Atmospheric conditioning and testing
- Cold chain testing
- Certification and documentation options available

## Prototype and Sample Pack Development

Sealed Air packaging professionals can develop a production-quality sample package able to meet critical protection and shipping requirements.

The total prototype process includes:

- Per package cost estimates
- Overall prototype performance
- Package Value Analysis development
- Verification and validation

## Tooling Capabilities

Nearly every Sealed Air Packaging Design and Development Center has in-house tooling capabilities. Our engineers will customize an efficient solution to best fit your packaging needs.

Our tooling solutions are:

- Specific to each proposed design
- Compatible with newly developed high-speed, automated production systems
- Designed to utilize specific materials, formulations and production resources
